Terry Grant Horner, MD

Research

International Study of Unruptured Intracranial Aneurysms, Principle Investigator
NIH/ Mayo Clinic 1995-2000 (Funded) and 2004 – Present (Funded)

Carotid Occlusion Surgery Study, Principle Investigator
NIH/Washington University St. Louis 2002 – Present (Funded)

Onyx Liquid Embolic System: U.S. Multicenter, Randomized Controlled Study
Comparing the Performance of Onyx (EVOL) and TRUFILL (n-BCA) in the
Pre-surgical Embolization of Brain Arteriovenous Malformations (BAVMs)
Micro Therapeutics, Inc., 2002- Present. Co-investigator (Funded)

Clazosentan to Overcome Neurological Ischemia and Infarct Occurring after
Subarachnoid Hemorrhage. (Conscious Study) 2005-2006 Actelion Principal Investigator
(Funded)

Efficacy/Safety of Tirilizad Mesylate (U-74006F) in SAH, Principle Investigator
NIH/ Upjohn Co. (Funded)

Hamilton Ventricular Drainage Catheter Study, Principle Investigator
Cook, Inc 1999-2002 (Funded)

Guglielmi Detachable Coils (GDC)
(Embolization of non-operative cerebral aneurysms), Co-investigator
Target Therapeutics 1994-1998 (Funded)

N-Butyl Cyanoacrylate (Avacryl)
(Embolization of CNS AVMs), Co-investigator
Tripoint Medical 1994-1996 (Funded)

Nicardipine SAH Drug Study
(International Cooperative Study of Aneurysms and SAH), Principle Investigator
Dupont pharmaceuticals 1987-1989 (Funded)

Drug Study PY 108068
(Treatment of cerebral vasospasm), Co-investigator
Sandoz Research 1986-1987 (Funded)
